SWOT ANALYSIS

Strengths ✓

- **Advanced academic credentials**
- **Member of the Scientific Committee of the Arab Federation of Psychotherapists, thereby augmenting its credibility.**
- **Comprehensive experience in family and educational psychotherapy.**
- **Competitive pricing relative to the quality of service**
- **Discounted packages are available.**

Weaknesses

- **The elevated price level can be attributed to specialization and a high level of education.**
- **The existing digital infrastructure is inadequately developed, necessitating further investment in digital marketing and the advancement of e-booking platforms.**
- **Disregarding digital marketing.**

Opportunities 📈

- **The demand for online psychological services is on the rise.**
- **The potential to establish strategic partnerships with international organizations and healthcare facilities to bolster awareness and enhance confidence.**
- **Establishing a customer relationship management and digital reservation system**
- **Please provide a website.**
- **Promoting awareness of the significance of mental health and advocating for psychotherapy within the community.**

Threats ⚠️

- **Rising competition from online psychological service providers in Egypt and the Arab world.**
- **Cultural and social challenges associated with the stigma surrounding psychotherapy in certain segments of society.**
- **Economic or regulatory developments that may influence clients' expenditures on psychological services.**
